# Fire Detection & Suppression Specialist

# About Us

Fitech Engineers Pvt. Ltd. has been established for over three decades offering clients Fire Detection, Protection & Suppression Systems. With an aim of Protecting Life, Property and Productivity we are pleased to venture into Defence and offer effective, innovative and robust systems indigenised to meet the requirements of modern-day challenges.

Our automatic fire suppression system is the last line of defence in ensuring the protection of personnel in armoured vehicles against fires caused by IEDs or penetrating munitions. The system is capable of detecting the fire, processing the signal and dispersing the gas suppressants in less than 250 milliseconds, extinguishing all possible types of fires.

We also offer solutions for Commercial Buses, Military Vehicles, Light Armoured Vehicles, Heavy Earth Moving Equipment, Fast Interceptor Boats and other marine vessels meeting the requirements of DGQA, DRDO, Ordnance Factories & other MOD organizations.

Chemical, Biological, Radiological and Nuclear (CBRN) systems have become crucial in today's modern-day warfare and can be used for both military and commercial purposes. CBRN systems can be used against mass destruction weapons, biological weapons, industrial accidents and leakage. This system provides filtered clean air to the environment by absorbing CBRN contaminants.

## Vision

To design, develop, indigenise, manufacture and supply products for various Defence & Commercial applications and contribute to the Atma Nirbhar (Self Reliant) Bharat.

## Mission

To become a preferred partner to Defence & Commercial Vehicle & Marine Vessel Manufacturers for Fire Detection & Suppression Systems.

## Aim

Provide the latest and safest product offerings meeting the highest international quality standards and expand our markets globally.

## Objective

We are a dynamic family-run business having deep-rooted values and a global outlook. Our objective is to be an organization that provides engineered solutions for Safeguarding Lives, Assets & Businesses globally.

# Products & Systems Offering

- ▼ Armored Vehicle & Main Battle Tank (MBT) Fire Suppression System
- ▼ Military Trucks & Vehicles Fire Protection System
- ▼ Aerospace Fire Extinguishing System
- ▼ Fire Protection Systems For Buses
- ▼ Automatic Fire Detection & Suppression System For Heavy Earth Moving Equipment
- ▼ Automatic Clean Agent Tubing System
- ▼ Ammunition Chamber Storage Fire Detection & Suppression System
- ▼ Marine Fire Detection & Extinguishing System
- ▼ Laser Detection & Grenade Launcher System
- ▼ Clean Agent Fire Suppression System
- ▼ Air Conditioning, CBRN Filtration and Detection System
- ▼ Power & Electrical System
